

## **MEDIA ADVISORY**

JANUARY 20, 2011

### **COCHRANE SUSTAINABILITY PLAN PROGRESS REPORT** **TO BE RELEASED JANUARY 24**

The Cochrane Sustainability Plan (CSP) has been guiding area residents to a more sustainable future since 2009. On January 24, a Progress Report that outlines sustainability achievements to date will be released by Sustainability Partners Uniting Resources (SPUR), the volunteer group responsible for guiding the CSP's implementation.

Members of the media and area residents who are interested in learning more are invited to attend a presentation by SPUR to the Cochrane Town Council on January 24 at approximately 6 p.m. The presentation by SPUR Co-Chairs Valerie McCracken and Jeff Couillard will include an update on community progress towards the 13 Pathways and sustainability targets outlined within the CSP.

Electronic copies of the Progress Report will be available for download on [www.cochranesustainability.ca](http://www.cochranesustainability.ca) after the Town Council presentation.
